BUSINESS OF THE MONTH

Clearings Show an Increase of About \$3,000,000 Over Those of February, '91.

The Suspension of Street-Car Traffic Continnes to Affect the Retail Business of the City-Grains Quiet and Rather Weak.

## MONEY AND STOCKS.

Report of Clearings for the Past Week and

The month of February, with its twentynine days, five of which were Mondays, showed \$15,780,156,34 in clearings and \$1,552,081.93 in balances. Yesterday's clearings were \$618,734.56; balances, \$42,771.24. The week's clearings amounted to \$3,914,-859.26; balances, \$346,390.24. For the corresponding periods in 1891 the clearings were as follows: For the day, \$563,627.08; for the week, \$3,121,656,34; for the month, \$13,595, 158.52. The balances for these respective periods were: For the day, \$66,475.11; for the week, \$526,693,64; for the month, \$1.437,-759.17. The falling off in the deposits of retailers cortinues, and commission men and wholesalers are also complaining of the disastrous effect of the street-car strike upon sales and collections.

NEW YORK QUOTATIONS. At New York, yesterday, money on call was easy at 11/2 @2 per cent., the last loan being made at 2, closing offered at 2.

Prime mercantile paper, 4/a5 per cent. Sterling exchange was quiet and firm at \$4.85 for sixty-day bills and \$4.88 for demand.

The total cales of stocks were 619,789 shares, including the following: Atchison, 10,880; Chicago Gas, 6,808; Delaware, Lackawanna & Western, 65,570; Delaware & Hudson, 39,384; Erie, 31,640; Lake Shore, 5,845; Louisville & Nashville, 6,500; Northwestern, 3,900; New Jersey Central, 6,980; New York Central, 14,850; Northern Pacific preferred, 13,800; Commercial New England, 43,590; Reading, 166,418; Richmond & West Point, 9,250; St. Paul, 33,061; Union Pacific, 10,646; Western Union, 4,400.

The stock market opened the new week with a renewal of the excitement over the Coal stocks, and great activity in those shares was again accompanied by phenom-enal movements in their process, which were in the upward direction. The rest of the market sympathized to a limited ex-tent, but New England and New York Central were the only ones to score any material improvement from the rise. Delaware & Hudson was the center of interest this time. At the best price it was up over 7 per cent., and Lackawanna nearly as much, while Jersey Central rose over 4, and Reading was put to above 60. There was only one weak point in the list, and that was Distiller's, which continued to decline slowly, but steadily, while the other industrials were firm, but quiet. The opening was strong and active, and unusually heavy buying by London houses created a bullish feeling, which was quickly reflected in purchases for the long account

and material advances. The interest in the coal stocks, however, soon overshadowed the rest of the market, and the heavy advances in those shares completely dwarfed the movements in the other shares. The improvement in values, however, was checked temporarily by the announcement of the taking of gold for export. but the check was of short duration and the advance was soon resumed. Realiza-tions also held the list down in the last hour, but the market closed firm and hope-The final gains include Delaware & Hud-son, 5%; Lackawanna, 5%; Jersey Central, 3%; New York Central, 2; Sugar, 1½; Cord-age, 1½; New England, 1½, and Union Pa-

citic and Canada Southern 1 per cent. each. The interest in the bond list was not so marked to-day, although the activity in the Reading issues again ran the total up to \$2,910,000, but with the exception of a rise of 3 per cent. in Kansas City & Omaha firsts there was no marked movement in the entire list. A firm temper, prevailed, howeyer, and advances are more numerous than losses to-night.

Government bonds were dull but firm. State bonds were neglected. Closing quo-

## THE JOBBING TRADE.

Black Will Be the Color in Hoslery-Suteen Shirts, Suspenders and Other Apparel. Like last week, Monday is quiet and but few customers show up. Orders, together with an overflow of business from last week, give jobbing-houses an appearance of bustle and work. Many new lines in wool fabrics are shown in the dress-goods departments, while the display of ginghams and printed wash fabrics are certainly very attractive. Black goods in plain, brocade, plaid, checked and lace effects are again shown this season, and, like black mitts, black hosiery, black suspenders and black sateen shirts, will again hold the boards for spring and summer. [The quotations given below are the selling prices of wholesale dealers.]

CANDIES AND NUTS. Candies-Stick, 6c per lb; common mixed, 6c; G. A. R. mixed, 7c; banner stick, 9c; cream mixed, 10c; old-time mixed, 7c; crimp Nuts-Soft-shelled almonds, 17c: pecans, 15e; English walnuts, 10@15e; Brazil nuts,

New York Ledger. "I never knew what convenience was." remarked a practical housekeeper the other day, "until I had made several trips in a dining-car on one of the best-equipped railroads in the country. The cul-inary arrangements interested me very deeply, and I was greatly pleased to find among the passengers an officer of the road with whom we had some slight acquaintance. Upon expressing my surprise that such complete arrangements could be made in such small space, the officer invited me to inspect the kitchen department of this restaurant on wheels. I found that a space but little longer than the width of the car was required as storage for provis-ions for the entire train. Some arti-cles were bought in quantity to serve on the return trip; others were supplied by contract at points along the line. There was no confusion, no crowding, and no waste room, of course. On the basis of such an arrangement an ordinary family would require a kitchen not larger than the average china closet. Ice, butter, meats, vegetables and other provisions were stored away with the most perfect

"I observed one thing which was and always will be a lesson to me. Whenever one of the several employes had finished using any article, it was immediately put exactly into the place designed for it, This is to some extent the secret of successful management in these cars. It would be impossible to get about in such limited apace if every article was not religieven for a moment, would be allowed. One article thrown down in the careless way in which housekeepers frequently indulge would be as disastrous to perfect service as a displaced switch would be to the train. Everything would be in disorder in an instant. I think it would be a most useful thing if housekeepers could examine such equipments occasionally. They would learn how easy it is to work in small space if all the demands of system and order are met. Of course, it would not be possible to do this with the help that one must often depend upon, but the woman who does her own work would find that she could do it in a fraction of the time she now finds it necessary to spend on her household duties. How important this is,

the inexperienced housekeeper is unable to "The secret of good housekeeping 1s, first of all, to have convenient places for all necessary utensils and furnishings. No woman can work to advantage if every time she wants a piece of china she must move a dozen things to get it. Housework would lose half of its terrors if kitchens and pantries were made as convenient as offices and some of the well-equipped restaurants in city establishments. To have suitable utensils and perfectly convenient places for them is one secret of good and

easy housekeeping." Value of Sheep.

Give a thought to sheep, this spring, if you have any run-down fields that you have not quite decided that you can use to any profitable purpose. Often it is the only animal that will bring any return at all from such land, as it will get much of its food from herbage so short or of such a nature that other stock could not utilize it at all, and the sheep will help the land also, especially if you are generous enough to give them a lit-tle additional food. They will utilize this to their own advantage, and yours, in making tlesh and wool, and yet distribute a good portion of its value as a fertilizer upon the land. If the land is foul the sheep will clean it up more cheaply than any other laborers that you can employ, for they will eat almost all sorts of weeds and bushes, and will crop them so closely and persistently that they are compelled to give up the fight for life. The sheep also will clean the fence-rows and corners and ont-of-the-way places that are overlooked when you send a man for that purpose. They will clean a foul pasture, and so make it ready for better grasses and other stock. for horses, cattle and hogs, for even the latter are more fastidious as to their pasture than sheep are.

If a young tree is growing very fast it will be best to head back half its yearly growth, for trees that grow so rapidly are apt to get bark-bound and split open; they blossom, but rarely bear fruit, as the blos-Pineapples—\$3@4 \$\psi doz;

# WHEAT STILL DECLINING

After Various Fluctuations the Chicago Article Closed Weak at 89 3-4c.

Range for the Day Was Little Less Than 2 Cents, Giving Short Sellers Abundant Opportunity to Even Up Their Deals.

## TRADING AT CHICAGO.

eline to Strength,

CHICAGO, Feb. 29.-Wheat opened dull.

Poor Grading of Receipts Made Corn In

with an advance of &c above the closing figures of Saturday, but the market was inclined to weakness for a time. The higher opening was attributed chiefly to the cold wave in the Northwest. The temperature was reported at zero in South Dakota, though the wave seemed to be narrow, as it was 30 degrees above in North Dakota. Light snow was reported in the northern part of the winter-wheat belt, with threatsued snow elsewhere. The receipts in the Northwest were unusually heavy; the early cables were not encouraging, as London and Liverpool were quoted dull and unchanged, and as the seaboard markets were also slow a large increase in the visible was generally looked for and there was free selling for a time with a sagging market, which carried prices down to Saturday's last figures. But the decline left a good profit for some of the recent short sellers and there was a pretty general impulse to cover, under which there was some restoration of confidence and prices gradually went up le from the low point. Good buying orders for New York account assisted in the advance, but perhaps the strongest factor was the unexpected result in the visible supply statement which, instead of an increase, scored a decrease. The later private cables were also more assuring and domestic markets also turned stronger. Milmine-Bodman, Baldwin and Pardrige were the leading sellers most of the day, although it was reported that William Dunn and some of the other foreign houses sold freely at an advance. After the noon hour the market became very weak on free sales by New York, and on the down turn local holders also got discouraged and sold freely. May went off with some excitement and sold down with some reactions, 1%c from the highest point. May opened at 90%c, against 90%c at the close on Saturday, touched 10%c, sold off to 90%c, rallied to 91%c, broke to 89%c and closed weak at 89%c. Late cables and

domestic market reports were nearly all Corn was inclined to be strong on the poor grading of the receipts and the wet weather, which tends to continue that state of affairs. There was a good demand from shorts to cover, but the offerings were only moderate. The firmer tone in wheat in the middle of the session also helped corn, but later, when wheat broke, corn was sympathetically affected. May opened 'sc up at 42 sc, touched 42c, advanced to 42 sc. weakened and closed at 4218c.

Oats were quiet, but rather firm. There was less selling pressure and a good demand to cover shorts, but the market weakened with other grains near the close. and closed 'sc under Saturday's last figures. Hog products were stronger, with a fair local demand. Receipts of hogs were about as expected. Prices of the products were affected sympathetically by the fluctuations in grains, but the close showed advances, particularly in pork, which is up

Estimated receipts for to-morrow are: Wheat, 190 cars; corn, 340 cars; oats, 225

GRAIN AT HOME AND ABROAD. Figures Showing the Quantity in Sight

the United States on Saturday. NEW YORK, Feb. 29.-The visible supply of grain on Saturday, Feb. 27, as compiled by the New York Produce Exchange was as follows: Wheat, 41,110,285 bn, a decrease of 368,503; corn, 10,386,556 bn, an increase of 253,359; oats, 3,886,223 bu, an increase of 246,487; rye, 1,868,354 bu, a decrease of 32,754; barley, 1,566,332 bu, a decrease of 58.500.

The Foreign Grain Trade. LONDON, Feb. 29.-The Mark Lane Express, in its weekly review of the British grain trade, says: English wheats are flat. The average decline in prices for the week is 8d. Foreign wheats average 6d lower. The inquiry from the continent is slackening. English flour is heavy. There are large supplies of American at 28s per sack. American flour has been underselling the English products since the beginning of September. The imports have been 2,250,000 quarters in excess of the average requirements. Malting barley is neglected. Corn is 3d dearer in London. At Liverpool prices are unchanged. Beans and peas are steady. At to-day's market English wheats were offered at 6d decline. Foreign wheats were rather firmer. Foreign flours were down 6d. Oats were 8d better. The prices of corn were in sellers'

-THE-

The Journal is first of all a newspaper.

Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.
